OFFICIAL PAPER OF THE CITY.

Janesville Daily Gazette.

VOLUME 8.

JANESVILLE, WIS., TUESDAY, NOV 15, 1864.

NUMBER 221.

The WEEKLY GAZETTE is now the largest paper printed in the State, and having the matter published in the DAILY to select from, we challenge comparison with any newspaper in Wisconsin. In carrying out our policy, we have no other object in view than to give the public the most reliable and complete information in regard to all matters of public interest, and we shall spare no pains to make the WEEKLY GAZETTE worthy of public patronage and support.

The News.

The military situation remains unchanged. Sherman has been heard from for several days. It is stated that Secretary Seward will apologize to the Brazilian government for the capture of the Florida. The trial of Col. North, the New York State agent, has been resumed. Gov. Seymour and Governor-elect Fenton, have been summoned as witnesses. Twelve thousand federal prisoners have died at Andersonville, Ga., since the establishment of the prison at that point. A hurricane at Calcutta, on the 30th of October, wrecked 110 ships, and, by inundating the country drowned 12,000 persons. The fleet assembled at Fortress Monroe, under command of Admiral Porter, is said to be the largest armada ever collected for a single expedition since the war began. Secretary Seward declines to entertain the proposition of a German banker for the loan to the United States of a thousand million dollars, but states that he will refer the offer to Congress with a favorable recommendation.

What Ailed It.

Some of our political friends who doubt on being called "Democrats," are just now trying to convince the American people that they positively had a man in the field at the late election for President, and are busy with their excuses for being so badly beaten. To prove that they had a candidate, they do not rely altogether upon the number of votes which they allege was cast for him, for the truth is, the votes thrown for Little Mac might as well have been arranged in the tabular statements under the head of "scattering," as in any other manner; but they seem to rely more upon the fact that the Chicago Convention, whose history is the synonym of infamy, absolutely met on the 29th of August, and nominated George B. McClellan for Presidency. Having, as they believe, fully shown to the political antiquarian that they had a candidate in the field, they next go to work to assign some plausible reasons for his overwhelming and ignominious defeat. And it is a pleasant pastime for an idle man to read their lamentations and listen to their reasons. One dolefully declares that the people have no longer any ability for self-reliance—that the experiment of self-government is a dead failure, and that the elective franchise is a curse to any people. Another doctor accounts for McClellan's defeat upon the hypothesis that an insane frenzy has seized the public mind upon the negro question which renders them incapable of reasoning correctly upon any public question. Another paper says Vallandigham was the old man of the sea that sat astride of McClellan's neck and drowned him in the lullaby waters of oblivion. Still another asserts that it was the miserable peace platform that sunk of its own dead weight, carrying their candidates down with it, and last of all another gives it as his opinion that the man who conquered the Quaker guns at Manassas, was beaten because he was too much of a war man, and the people wanted peace at any price!

And thus it is that these doctors dispute and disagree as to the sort of distemper that carried off their patient, and are quarreling among themselves as to what particular nostrum will save the lives of other friends of theirs, should they be similarly attacked. The question with the managers of the organization now is, "what did our party die of?" for that it is stone dead there is the most abundant testimony to prove. Cook Robin is certainly killed, about that there is no sort of dispute—the question is what killed him; was it the platform, the candidate, the peace question, or the war question?

We believe that these mourning friends are all partly correct in their diagnosis of the disease that proved mortal to their party. And the pill concocted at Chicago, consisting of five parts secession, two parts state rights, three parts Vallandigham, peace and disunion, sugar-coated with McClellan as a mild type of a war man, instead of being "good for what ailed it," only had the effect to hasten its dissolution. It is dead and buried and the mourners go about the streets refusing to be comforted. If they will but learn the lesson that this (to them) afflictive dispensation was intended to teach in the death of the so-called democratic party, all will be well. It ought to learn them that no disloyal party—no party that sides with the enemies of the country in time of war, can ever succeed in America, no matter what name it writes upon its banner.

The New Congress.

Janesville Daily Gazette.

VOLUME 8.

JANESVILLE, WIS., TUESDAY, NOV. 15, 1864.

NUMBER 221.

The Weekly Gazette is now the largest paper printed in the State, and having the matter published in the DAILY to select from, we challenge comparison with any newspaper in Wisconsin. In correct political doctrine, in reliable market reports, in giving the latest news from all quarters, in literary merit and in local information relating to this city and county, we shall strive to place the Weekly Gazette in the front of public patronage and support.

The News.

The military situation remains unchanged. Sherman has not been heard from for several days.

It is stated that Secretary Seward will apologize to the Brazilian government for the capture of the Florida.

The trial of Col. North, the New York State agent, has been resumed. Gov. Seymour and Governor-elect Fenton have been summoned as witnesses.

The fleet assembled at Fortress Monroe, under command of Admiral Porter, is said to be the largest armada ever collected for a single expedition since the war began.

Secretary Fessenden declines to entertain the proposition of a German banker for the loan to the United States of a thousand million dollars, but states that he will refer the offer to Congress with a favorable recommendation.
